

Do You Need Immediate Attention?

Follow these tips to help determine if the situation is an emergency.

Go to the nearest ER if:

Signs of **heart attack**

- Pressure, squeezing in the chest
- Sudden shortness of breath
- Pain in arms, back, neck, jaw

Severe **shortness of breath**

Signs of **stroke**

- Sudden weakness or numbness
- Sudden dimness or loss of vision
- Slurred speech, trouble talking

Loss of consciousness

Poisoning

Sudden and **severe pain**

Severe **allergic reaction**

Major injury or **head trauma**

This is not an all-encompassing list of symptoms.

Call 911 if: the adult is not alert, conscious or breathing.
